St. Loo a banks find it so as well as we, ly to be followed, in the course of a week if we may judge by the following from the Gobe of April 74th: "The majority of the banks pursued an almost idle business. Eastern exchange was not to be found in the market. There is none making at the present time, and bankem are obliged to ship currency daily. There are now in the market large orders from the country loanks for eastern exchange, which can not be filled by our city banks, without shipping the cur-The Cinc, must Enquirer of Wednesday says: "There is an ample supply of curren cy, and the tendency is toward a furth or increase, as the current receipts from the country through mercantile char , pels are liberal, while there s no outw and flow except what is sent to New York for the basis of exchange. The ba aks continue to discount ireely at er cont., but the latter is the preg figure, and is low enough to fowing from the New York Chron-sole observes that while the English and French banking methods have many points of superiority to our own "our banking system has safeguards which, if judiciously used, would be of immonse advantage, and are sure, sooner or later, to be universally adopt ed. By rail, south THE GENERAL MARKET had no "go" in it yesterday. Corn was still looking down; 86c was asked, but 85c was the usual offer; Chicago quotes it dull and lower, and St. Louis dull, unsettled and lower. Oats were doing nothing; they were reported dull and lower in Chicago, and dull, unsettled and lower in St. Louis. Commeat is still demoralized; fresh sold at \$3 60 and kilndried at \$3 65 @3 70; St. Louis papers of Wednesday report it inactive and lower at \$3 65(a) 75; over the price it brings in Memphis when freight and charges are paid. Potatoes are weak and very quiet. Green peas, in boxes, from Louisiana, sold at the rate of fifty cents a peck, but there appeared to be no keenness in the demand for them. Live stock is principally remarkable for the liveliness of the demand for mules and horses at so late a date; the long winter has thrown many things out of their usual course. There is some irregularity in the rates of pork and bacon; in every article we find -among the very best sources of infer-mation-s difference of ic per pound in several particulars, and in others of ic, the latter the most frequent. In our quotations we give the lowest prices, and indicate the higher without undertaking to pronounce which is the more authoritative. The St. Louis Globe, 14th, sition evinced to trade in options, the faith of an ultimate higher destiny for the bog product, seem to regard the present condition of affairs as a mere episode, incidental to the unusual surroundings of this year's trade, and likeor two, by another upward paroxysm, as startling to scaptice as that through

which we have recently passed." Quotations are for round lots, unless otherwise expressed; for feed and produoe, levee rates. For small purchases rates are proportionately higher.

DR. CURTIS'

Last Professional Season in New Orleans. REAL DSTATE DR. E. BE F. CUEIIS, M. D., F.R. C. S., Author of "Manhood," "Medical Emays on Marriage," Etc.,

While returning his sincere thanks to his nnmerous patients in Memphis and the adja-cent Southern country for the flattering evi-dences of their confidence and esteem re-ceived by him, desires to announce that he

Will Leave New Grienns on the 1st day of Eny Next, for San Francisco, California, where he has business interests to protect, and which will require his presence for the next two years, at least. In making this amounteement thus earty, it is for the purpose of saving from disappointment many who desire to place themselves under his care, but who fail to call till the last few days of his stay, and in fact, as in former years, have called at his office after his departure, much to his regret and their disappointment. In order, therefore, that no one may have an excuse for missing the opportunity of His Personal Attention, those who wish to place themselves under his care should CALL AT ONCE at his rooms.

DR. CURTIS has devoted himself for a period ranging over twenty years, and adopted, as his specialties, the treatment and cure of

Nervous and Physical Debility, Exhausted Vitality, Premature Decline Abuse of the System, and such general forestional derangement as springs from the above causes, or are incident to an enervated and depleted condition of the organs.

DR. CURTIS addresses himself to those who have already yielded to the suggestions, and besought the care of ignorant advertising chariatans, from whom they have received on benefit, and who, in fact, bave done them more material harm than practical good. It is conceded that Medicine, like all other sciences, is progressive, and every year but reis conceded that Medicine, like all other sciences, is progressive, and every year but records some new development or markel silvance. By a felicitous combination of remedies of acknowledged curative powers, DR. CHRTIS has so arranged and adapted his treatment as to afford not only immediate relief, but radical Times says: "Dr. Curtis" system of treatment, the result of twenty years' successful practice, differs from all others in general use and commends itself to the afficied as the only true source of relief. Many general use and commends itself to the af-flicted as the only true source of relief. Many cases pronounced incurable have yielded suc-cessfully to his remedies."

Dr. Curtis would again impress upon the minds of all who contempiate consulting him the duty of Calling Without Belay.
